Report on Study Trip (Water Testing) to PHED, Tuensang

Dated: 4th April 2024

The Department of Botany and Zoology, Sao Chang College, Tuensang organized one day study trip to PHED department, Tuensang with the objective to conduct hands on experiments on water analysis of various parameters that include pH and temperature testing, Chloride, Alkalinity and Sodium test etc. The students were assisted by the lab technician Ms.Changkhumla from PHED department. The experiments were also part of the partial fulfilment of BSc curriculum. The department contributed bacterial testing vials to the college.

A total of 8 students from BSc 4th and 6th Semester along with three faculties participated in the study trip.
