Introduction:

On September 29, 2023, students from the Government Higher Secondary School, Thangjam, Tuensang, Agriculture Department visited Sao Chang College Polyhouses (under Vocationalisation of Higher Education RUSA 1.0) for an educational tour.

The objective for the educational tour was to enhance the knowledge and practical skills of the students in gardening. And also give them an exposure on sustainable gardening practices, environmental awareness, and the importance of hands-on learning in gardening. Also.

Tour Highlights:

Welcome and Orientation:

The tour commenced with a warm welcome. The students were made aware on the overview of the college's commitment to sustainable practices and the significance of gardening in promoting environmental stewardship.

Rose Cutting Propagation:

The procedure for rose cutting propagation techniques was demonstrated and the conditions for success were explained. To encourage hands-on learning, students participated in the cutting propagation activity. This practical exercise allowed them to experience the initial stages of plant growth and understand the importance of proper propagation.

Greenhouse Visit:

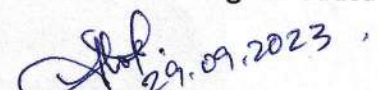

The students were guided through the Polyhouse facilities: Polyhouse 1- Gerbera, Polyhouse 2- Chrysanthemum, Polyhouse 3- King Chillies and Polyhouse 4- Rose. They learned about controlled environments, plant propagation techniques and use of technology in modern horticulture.

Scope of Gardening:

The various avenues of income generation through gardening were highlighted. Emphases were given on landscaping, fresh cut flowers, dry flowers and incorporation of Apiculture in horticulture were also explained in detail.

Conclusion:

The Students were provided with a holistic understanding of gardening, emphasizing sustainability, environmental responsibility and integration of technology in horticulture. The hands-on experiences enriched the students learning and inspired them to apply sustainable gardening practices in their academic and personal lives. Hosting the educational tour was a resounding success in achieving its educational objectives.
