Report on Workshop on Basics “Photography and Videography”

Botanical club under Botany Department sao chang college organize a workshop on basics photography and videography dated 15th April 2023 at SCC conference hall from 1: 00 PM, with the objective to highlighting the participants the **educational power of photo and video production in the current digital age**. The workshop was led by Ms. Sochemlemla, B.Sc 2nd Semester. The different types of cameras were emphasised by Mr. Batang Tobou, a professional photographer, who also demonstrated how to use the camera's various technical functions and how to make adjustments while taking images to produce professional-quality results. He further emphasises the value of lighting and flash. Mr. Hongen Thangte, a freelancer, provided a brief explanation of how he began producing videos and urged the students that YouTube and other social media are effective platforms for showcasing talent. He described the fundamental posture requirements and demonstrate the various tools required while recording video. He gave a brief ideas on the use of kinemaster app, smartphone version and demonstrate the use of wondershare filmora, PC version. Throughout the interaction session, the participants actively participated. Ms. K. Vidila Jing, Assistant Professor, Department of Zoology gave the vote of thanks. Through this session, a total of 11 students and 10 assistant professors benefited. Altogether there were 24 participants (including the resource person and one if their attendant). Following the session, feedbacks were also collected. From the feedback collected, the response received was very positive in term of resource person selection and their presentation and the personal skill enhancement from the workshop.
